

ACKNOWLEDGEMENTS

The authors deeply appreciate the expert advice provided by the members of the advisory committee, who are listed below. Survey respondents also offered valuable information, and we are particularly grateful to those who furnished documents for inclusion in the manual's appendix. Information and reviews provided by Iowa attorneys Mary Ann Shao, David Hibbard, and James Hudson and by Iowa State University Associate Professor of Agricultural Law Roger A. McEowen were crucial in assuring a sound and valid basis for this manual. Thanks also go to West publishing company for allowing the reprint of drainage-related sections of the *Iowa Code Annotated*. Finally, the authors thank the Iowa Highway Research Board for approving and funding this project.
