For more information
To become familiar with traffic calming techniques, review Section G9.1 of the *Iowa Traffic Control Devices and Pavement Markings Manual for Cities and Counties*. Iowa City, Clive, Des Moines, and Bettendorf have constructed traffic circles, roundabouts, and other nontraditional traffic calming/traffic control devices.

The Institute of Transportation Engineers has published several detailed publications on traffic calming. These publications are available through CTRE’s library, as is the FHWA’s 2000 publication, *Roundabouts: An Informational Guide*, (P1482). Contact Jim Hogan, librarian, 515-294-8103, hoganj@iastate.edu.

In addition, training workshops can be arranged through the Iowa LTAP center. Contact Safety Circuit Rider Tom McDonald, 515-294-6384, tmcdonal@iastate.edu.

### MUTCD compliance dates: January 2003

Note approaching deadlines for complying with revisions to the millennium edition of the MUTCD:

- **Section 3B.01**—Yellow Centerline and Left Edge Line Pavement Markings and Warrants, compliance date January 3, 2003
- **Section 3B.07**—Warrants for Use of Edge Lines, compliance date January 3, 2003

These provisions will not be affected by Proposed Amendments for MUTCD, Revision 2 (posted May 2002). If you do not have a copy of the most recent MUTCD, you can find the provisions on the Federal Highway Administration’s MUTCD website, [http://mutcd.fhwa.dot.gov/](http://mutcd.fhwa.dot.gov/).

### Websites that work for you

#### NCHRP approved traffic control devices
This Texas DOT web site lists all of the acceptable traffic control devices for use in work zones that comply with the standards set by the NCHRP. [www.dot.state.tx.us/insdtdot/orgchart/trf/crldvcs/trfteps1.htm](http://www.dot.state.tx.us/insdtdot/orgchart/trf/crldvcs/trfteps1.htm)

#### Guides to better work safety
The FHWA provides a great resource for agency safety coordinators. It has links to various work safety guides including the *Best Practices Guidebook* and *Meeting the Customer’s Needs for Mobility and Safety During Construction and Maintenance Operations*. [www.ops.fhwa.dot.gov/wz/techshar.htm](http://www.ops.fhwa.dot.gov/wz/techshar.htm)

#### Planning and development basics for community leaders
This site helps community leaders, especially in rural communities, with planning and development. It teaches users planning and development basics such as government policies, planning, benchmarking (including an introduction to GIS), development concepts, growth concepts, and economic development. The tools on the site are free. [http://www.cdtoolbox.org](http://www.cdtoolbox.org)

#### Innovations that work

#### Protecting public transportation from terrorism
This site has informative articles about researching anti-terrorism measures in public surface transportation. They include *Protecting Public Transportation Against Terrorism and Serious Crime: An Executive Overview* and *Protecting Public Transportation Against Terrorism and Serious Crime: Continuing Research on Best Security Practices*. [www.transweb.sjsu.edu/pubs.htm](http://www.transweb.sjsu.edu/pubs.htm)

#### The high performance concrete forum
This is the FHWA’s forum for high-performance concrete (HPC). Discussions include HPC projects in other areas, definitions and research, mix design and proportioning, structural design and specifications, costs, and applicable case studies. [http://knowledge.fhwa.dot.gov/cops/hpcx.nsf/home](http://knowledge.fhwa.dot.gov/cops/hpcx.nsf/home)

#### The most dangerous two-lane highways in the country
“Dateline NBC” aired a story regarding the most dangerous undivided, two-lane highways in the country. This site contains the article, video, and an interactive road fatality map. Although parts of this news story are somewhat exaggerated, it has some good insights. [http://stacks.msnbc.com/news/748422.asp?cp1=1](http://stacks.msnbc.com/news/748422.asp?cp1=1)

#### One-stop site for transportation curricula
Use this FHWA site to find information on Transportation Curriculum Coordination Council (TCCC) training courses, state programs, and contacts. It also links to regional training and certification programs and the latest TCCC news. [www.nhi.fhwa.dot.gov/tccc/tccc.html](http://www.nhi.fhwa.dot.gov/tccc/tccc.html)
